Volunteers and Interns Programs

Volunteers and Interns Programs

IOP mobilizes, encourages, and invites volunteers from all over the world to come to volunteer, work, teach, and learn. We have connections to the Volunteers World Wide Organization in the Netherlands which sends volunteers to Tanzania. Volunteers can work in a number of professional and non-professional works including teaching, animal husbandry, forestry, fishery, beekeeping, sports, electricity, construction, maintenance, cookery, housekeeping, carpentry, tailoring, photography, video editing, fundraising, and gardening. IOP also arranges safari for individuals and groups coming from different institutions who combine volunteering work and safari. We have safari standard hostels for volunteers to stay. Also, we receive interns from training institutions inside and outside Tanzania who wish to do field practices in their areas of specialization.

Volunteer

Are you ready to spend some time away from home? To get some new experiences for some weeks or months? IOP is the perfect place for this! Here you can experience cultural exchanges, and get new friends, from all over the world. You will also get to know yourself better during your stay. Together we will work to make a better world.

What you can Contribute with:

1. Teach, both at preschool, primary, and high school
2. Help with fundraising work for different projects with a lack of fund
3. Teach the single young mothers
4. Plan how the buildings that are under construction best can be used such as the library and the restaurant
5. Teach the center children and help with their homework
6. Visiting students at home and schools
7. Writing the monthly newsletters
8. You are welcome to find your own project, something that you find is missing at IOP that you can contribute to!

IOP wishes to exchange experiences and knowledge, and hope that when you leave, you will have learned something from us and we'll learn something from you!
